

Razzle-Dazzle Midlayer

There are two sides to every adventure.

Warmth when you need it. Easy to pack away when you don't. Adjustable. Reversible. Dependable.

Dogs come in all shapes and sizes, much like the weather does. But with this reversible midlayer soft fleece jacket you can make sure your dog is comfortable and protected in any weather. Just choose the side that works best depending on weather conditions, the thickness of your dog's coat and the activity your dog will be enjoying, from casual walks to sports.

Where the jacket really shines is in its adjustability. You can adjust the back length, waist circumference and even the collar – true head-to-tail adjustability. With no zippers or buckles the jacket is easy to put on and take off. The jacket also makes a great first jacket for puppies because its adjustability, lightness and softness can help ease dogs into becoming better acquainted with wearing apparel.

Looking for extra mobility? The jacket's protective overlapping, double-layered front has your dog covered, literally, allowing for higher jumps and quicker moves without distraction. Your dog will have plenty of room to play and work thanks to the jacket's flexible surface fabric that is designed to accommodate a dog's natural movements.

The soft and snug Razzle-Dazzle Midlayer Jacket also acts as a versatile extra warming layer that works well under raincoats, winter coats and overalls whenever the weather gets nippy. It's a perfect midseason garment. And because it warms both playful puppies and sport dogs before and after performing, your dog can wear it year round.

- Reversible for changing weather: smooth, technical knit on one side, soft fleece on the other
- Surface 1: 100% PES 50D knit
